Influenza virus may be transmitted among humans in three ways: (1) by direct contact with infected individuals; (2) by contact with contaminated objects (called fomites, such as toys, doorknobs); and (3) by inhalation of virus-laden aerosols. The contribution of each mode to overall transmission of influenza is not known.

Influenza virus transmission - virology

Within the influenza A virion are eight segments of viral RNA. These molecules carry all the information needed to make new influenza virus particles. These eight RNAs are shown schematically as olive green lines at the top of the illustration. RNAs are chains of four different nucleotides, A, C, G, U. In the case

Influenza virus RNA genome - virology

Not automatically. RAS will just extend vertical "walls of water" in a cross section where you are above the end points. However, there is no automatic exchange of volume into the adjacent cross section when this happens.

A theory of everything (TOE or ToE), final theory, ultimate theory, or master theory is a hypothetical single, all-encompassing, coherent theoretical framework of physics that fully explains and links together all physical aspects of the universe.: 6 Finding a TOE is one of the major unsolved problems in physics. Over the past few centuries, two theoretical frameworks have been developed that ...

Myth: Bumblebee's shouldn't be able to fly. There's an oft repeated "fact" that the humble bumblebee defies all known laws of physics every time it flaps its tiny little bee wings and ascends to the sky. Now obviously this is false, since, well, bumblebees fly all the time and if every ...

Bumblebee Flight Does Not Violate the Laws of Physics

A question is an utterance which typically functions as a request for information. Questions can thus be understood as a kind of illocutionary act in the field of pragmatics or as special kinds of propositions in frameworks of formal semantics such as alternative semantics or inquisitive semantics. The information requested is expected to be provided in the form of an answer.

Question - Wikipedia

Thanks for your response Chris this is all very helpful info. Just double checking is it only the LOB ROB and CHANNEL that affect the calculations not the stationing (i.e if you had one channel centreline at station 100 and the next cross section centreline at 200 but the LOB and ROB are equal then the calculations would not be affected)

[toc] Agricultural chemical products can undergo chemical and physical changes on storage. The rate at which these changes occur depends on the nature of the active constituent(s), the formulation type, the packaging and, notably, the storage conditions (temperature, light and humidity). The product remains fit for use as long as these changes have no adverse effects on

INTRODUCTION. Some anthropologists and social psychologists maintain that love is a cultural universal. They believe that at least one variety of love, romantic love, is likely to have appeared in all human groups at all times in human history (see Hatfield & Rapson 2002). As evidenced by ancient human artifacts, it is clear that love, in one form or another, has always been on people's minds.
