The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

The Biology Project

By the late 17th and early 18th centuries, the digestion of meat by stomach secretions and the conversion of starch to sugars by plant extracts and saliva were known but the mechanisms by which these occurred had not been identified.. French chemist Anselme Payen was the first to discover an enzyme, diastase, in 1833. A few decades later, when studying the fermentation of sugar to alcohol by ...

We recently decided to show a movie to our 6th, 7th and 8th grade students on the last day of school. But when we started brainstorming ideas we had some difficulty coming up with movie titles that (a) the students would like and (b) we thought would be worth showing.. Listed below are the movies we came up with after consulting a variety of experts including: current middle school students ...
