Learn about position, velocity, and acceleration graphs. Move the little man back and forth with the mouse and plot his motion. Set the position, velocity, or acceleration and let the simulation move the man for you.

The Moving Man - Position | Velocity | Acceleration - PhET ...

The following lesson plan and lesson narrative show science teachers how they can incorporate the use of literacy strategies to support high school students to learn physics content and concepts. The lesson is designed for one block period (80–90 minutes) or two traditional classes (50 minutes). Instructional Outcomes. ISTE Standards: A1.

High School Science Lesson Plan: Physics - CCSSO projects

A flipped classroom is an instructional strategy and a type of blended learning that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom. It moves activities, including those that may have traditionally been considered homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in online ...

Flipped classroom - Wikipedia

Why do objects like wood float in water? Does it depend on size? Create a custom object to explore the effects of mass and volume on density. Can you discover the relationship? Use the scale to measure the mass of an object, then hold the object under water to measure its volume. Can you identify all the mystery objects?
