Options, Futures, And Other Derivatives (9th Edition) Free ...

Although John Hull's book "Options, futures, and other derivatives" is considered by many to be the bible for understanding derivatives, I think this book took the same shortcut that many books on this topic have taken. That is, they've focused on options where the underlying asset are stocks, exclusively.

Options Futures And Other Derivatives for sale | eBay

In finance, an option is a contract which gives the buyer (the owner or holder of the option) the right, but not the obligation, to buy or sell an underlying asset or instrument at a specified strike price prior to or on a specified date, depending on the form of the option. The strike price may be set by reference to the spot price (market price) of the underlying security or commodity on the ...
