The stream of debris is called the Perseid cloud and stretches along the orbit of the comet Swift-Tuttle. The cloud consists of particles ejected by the comet as it travels on its 133-year orbit. Most of the particles have been part of the cloud for around a thousand years.

Perseids - Wikipedia

Observational astronomy is a division of astronomy that is concerned with recording data about the observable universe, in contrast with theoretical astronomy, which is mainly concerned with calculating the measurable implications of physical models. It is the practice and study of observing celestial objects with the use of telescopes and other astronomical instruments.

Teaching High School Astronomy

The complete observing experience involves several impediments that lie between the starry heavens and the view we have of them. These include the atmosphere, telescope optical system, and our eye.

How to Choose Your Telescope Magnification - Sky & Telescope

Near human settlements, the brightness of the night sky is made up of light from both natural and artificial sources. Celestial light can travel directly to an observer (allowing one to see stars, galaxies, etc.), or it can scatter in the atmosphere and contribute to the diffuse glow of the sky.

Measuring night sky brightness: methods and challenges ...

ID Workshop; WS1: Creating stunning sky panoramas. Erich Meyer will give a deep insight into the most important steps in creating an impressive sky panorama, including topics such as planning, overlapping, proper choice of projection type and colour neutrality.

CEDIC '19 - March 15-17, 2019 / Linz / Austria

All sorts of software related to space are available for downloading or purchase over the web. These include programs for such areas as astronomy, satellite tracking, simulators, rocketry, etc. Note that "off line" and "standalone" here refers to applications that run outside of browsers.

Instead of making excuses for the fact that I have not made the tiniest appearance here at The Tangled Nest for, um, five months, I'm just going to jump right in with this: Ophelia, one of my beautiful Buff Orpingtons, is broody. She's been sitting stubbornly in the nest box for days on end and bristles at anyone, human or chicken, who dares to approach her and the eggs beneath her ...
