Probability Worksheets - Math-Aids.Com

This has been driving me mad for hours, and I don't really know why, as this is pretty easy compared to other types of math I've been doing before. The question is as follows: You have a jar of 12 marbles, 7 white, and 5 black. You draw 5 marbles at random, without putting any of them back. 1. What is the probability that you draw at least 2 white?

Probability math question.? | Yahoo Answers

High School Math (Grades 10, 11 and 12) - Free Questions and Problems With Answers Tutorial on finding the probability of an event. In what follows, S is the sample space of the experiment in question and E is the event of interest. $n(S)$ is the number of elements in the sample space S and $n(E)$ is the number of elements in the event E .
