Have you just started playing HQ game? Before participating in quiz, check out today's hq trivia questions & answers for reference. Also go through previous questions for extra practice.

Today's HQ Trivia Questions & Answers : Previous Quizzes ...

If you want to round, the rounding always comes at the end. If you don't do this, you get rounding errors. Also, since the bottom one has only one significant digit, that means that your answer would actually be 10 cm, instead of 11.9 cm (which, if you're going off of all of the lengths and angles besides the bottom one, is still not rounded well.

Trigonometry Angles-- $\pi/17$. Rather surprisingly, trigonometric functions of for an integer can be expressed in terms of sums, products, and finite root extractions because 17 is a Fermat prime. This makes the heptadecagon a constructible, as first proved by Gauss. Although Gauss did not actually explicitly provide a construction, he did derive the trigonometric formulas below using a series of ...
