Notes: The overall purpose of this course is to supply low-intermediate students with speaking, listening comprehension, reading and writing skills that help them become more successful in their jobs and community. The intensive approach focuses on common errors by comparing and contrasting Spanish and English grammar, with an emphasis on classroom participation.

Financial modeling is the task of building an abstract representation (a model) of a real world financial situation. This is a mathematical model designed to represent (a simplified version of) the performance of a financial asset or portfolio of a business, project, or any other investment.. Typically, then, financial modeling is understood to mean an exercise in either asset pricing or ...
