FORCES . A force is any push or pull that causes an object to move, stop, or change speed or direction.; The greater the force, the greater the change in motion will be. The more massive an object, the less effect a given force will have on the object.; Unless acted on by a force, objects in motion tend to stay in motion and objects at rest remain at rest.

The origins of Palestinians are complex and diverse. The region was not originally Arab – its Arabization was a consequence of the inclusion of Palestine within the rapidly expanding Arab Empire conquered by Arabian tribes and their local allies in the first millennium, most significantly during the Islamic conquest of Syria in the 7th century. . Palestine, then a Hellenized region ...

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits. Modern scholarship regards race as a social construct, an identity which is assigned ...
