What Is the Purple Math Solver? The Purplemath solver is a website that offers lessons on ways to solve many forms of algebraic problems. It provides detailed steps on how to solve quadratic, linear and rational equations, among others.

What Is the Purple Math Solver? | Reference.com

It would appear that domain would be $x \neq -2$. The $x \neq -3$ is hidden by the act of simplification of the original expression and that is why it is being singled out and noted at this stage in the solution, to make sure that it is still included in the domain. But you are quite correct $x \neq -2$ is still certainly part of the correct domain.
