Whenever possible, choose a questionnaire that has a proven track record in research that had objectives, samples and treatments similar to those in your own study. Put yourself in the shoes of the patients in your study and read through the questionnaire - will participants find the questions acceptable and be motivated to complete them?

PoCoG - Quality of Life Frequently Asked Questions

Approximately 2.7 million Americans die every year and only about one-third of all Americans have any type of advance directive for their end-of-life decisions on file with their health care providers. 2. Advance care planning is a way to support patient self-determination, facilitate decision making, and promote better care at the end of life.
