Industrial Emissions Directive (IED): environmental ...

It is a fee based on the amount of carbon in a fossil fuel. Fossil fuels such as oil, natural gas, and coal contain carbon. When burned they release the potent greenhouse gas, carbon dioxide (CO₂), into the atmosphere. The fee is based on the metric tons of carbon dioxide the fuel would generate, and it would be assessed at the earliest point of sale into the economy — as close as possible ...

"I think the world of Web development is becoming easier and easier but it's also making it harder for guys like me to find work because so many people want to use out-of-the-box responsive layout sites that are easy to implement and launch. I personally would much rather make a site from scratch than use a template.
