We examined the relation between work-family balance and quality of life among professionals employed in public accounting. Three components of work-family balance were assessed: time balance (equal time devoted to work and family), involvement balance (equal involvement in work and family), and satisfaction balance (equal satisfaction with work and family).

The relation between work-family balance and quality of life

A comparative study conducted by Logan et al. (2012) indicated that both entertainment and informativeness have a significant impact on the value of social media ads and TV ads. Another significant relationship was also noticed by Logan et al. (2012) between advertising value and customers' attitudes. However, Logan et al. (2012) disproved the impact of irritation on the advertising value.
