Lecture 8 Greek Thought: Socrates, Plato and Aristotle: The political and social upheaval caused by the Persian Wars as well as continued strife between Athens and Sparta (see Lecture 7) had at least one unintended consequence. In the 5th century, a flood of new ideas poured into Athens. In general, these new ideas came as a result of an influx of Ionian thinkers into the Attic peninsula.

Immanuel Kant (1724–1804) is the central figure in modern philosophy. He synthesized early modern rationalism and empiricism, set the terms for much of nineteenth and twentieth century philosophy, and continues to exercise a significant influence today in metaphysics, epistemology, ethics, political philosophy, aesthetics, and other fields.

### **Immanuel Kant (Stanford Encyclopedia of Philosophy)**

The theory of Forms or theory of Ideas is a philosophical theory, concept, or world-view, attributed to Plato, that the physical world is not as real or true as timeless, absolute, unchangeable ideas. According to this theory, ideas in this sense, often capitalized and translated as "Ideas" or "Forms", are the non-physical essences of all things, of which objects and matter in the physical ...

Physics (from the Ancient Greek φύσις physis meaning "nature") is the fundamental branch of science. The primary objects of study are matter and energy. Physics is, in one sense, the oldest and most basic academic pursuit; its discoveries find applications throughout the natural sciences, since matter and energy are the basic constituents of the natural world.

Physics and metaphysics. Aristotle divided the theoretical sciences into three groups: physics, mathematics, and theology. Physics as he understood it was equivalent to what would now be called "natural philosophy," or the study of nature (physis); in this sense it encompasses not only the modern field of physics but also biology, chemistry, geology, psychology, and even meteorology.

Socratic ignorance in contrast to conceited or presumptuous ignorance [In the Sophist, Plato contrasts "conceited ignorance" with Socratic ignorance. Conceited ignorance may also be called "foolish" or "presumptuous" ignorance because the man who thinks he is wise when he is not -- i.e. who thinks he knows what he doesn't know -- is both foolish in how he lives his life and presumptuous in ...

[67] Tahafut al-Falasifah, pp. 21 f. Plato's view is reported with the provision that some have questioned that he actually believed this to be the case. Of the Greek interpreters of Plato, Aristotle (Physics 251 b 17; De Caelo 280 a 30), understood Plato to mean in Timaeus 38B that both the universe and time were Created together. Xenocrates, on the other hand, followed by the Platonists and ...
