### Permutations vs Combinations - Kuta Software LLC

Permutations and combinations can be used when determining possible numbers of outcomes. † A permutation is an arrangement of outcomes in which the order matters. † A combination is a grouping of outcomes in which the order does not matter. Tell whether each situation involves permutations or combinations. A pizza place offers 3 toppings ...

### LESSON Reteach 10-8 Combinations and Permutations

Combinations and Permutations What's the Difference? In English we use the word "combination" loosely, without thinking if the order of things is important. In other words: "My fruit salad is a combination of apples, grapes and bananas" We don't care what order the fruits are in, they could also be "bananas, grapes and apples" or "grapes, apples and bananas", it's the same fruit salad.
