What One Famous Scientist Said About Evolution... "One morning I woke up and something had happened in the night, and it struck me that I had been working on this [evolution] stuff for twenty years and there was not one thing I knew about it.

EVOLUTION— THE BIG LIE! - Love The Truth!

SYNOPSIS: Students will experience the historical discovery of fossils that increasingly link whales to earlier land-dwelling mammals. This experience reveals how scientists can make predictions about past events, based on the theory and evidence that whales evolved. Such predictions suggest the age and location of sediments where fossils of early whales would most likely be found, and even ...

Lesson: Whale Evolution - Indiana University Bloomington

Answers in Genesis (AiG) is a fundamentalist Christian apologetics parachurch organization. It advocates Young Earth creationism on the basis of its literal, historical-grammatical interpretation of the Book of Genesis. Out of belief in biblical inerrancy, it rejects the results of those scientific investigations that contradict their view of the Genesis creation narrative and instead supports ...

What happens when neuroscience meets Dr. Seuss? Hosted by Henry Winkler, who has had his own

struggles with reading, Reading and the Brain explores how brain scientists are working to solve the puzzle of why some children struggle to read and others don't. Startling new research shows the answer may lie in how a child's brain is wired from birth.

Reading and the Brain | Reading Rockets

Objections to evolution have been raised since evolutionary ideas came to prominence in the 19th century. When Charles Darwin published his 1859 book On the Origin of Species, his theory of evolution (the idea that species arose through descent with modification from a single common ancestor in a process driven by natural selection) initially met opposition from scientists with different ...
