Principles Of Corporate Finance Ch

Corporate finance is an area of finance that deals with sources of funding, the capital structure of corporations, the actions that managers take to increase the value of the firm to the shareholders, and the tools and analysis used to allocate financial resources. The primary goal of corporate finance is to maximize or increase shareholder value. Although it is in principle different from ...

United States corporate law regulates the governance, finance and power of corporations in US law. Every state and territory has its own basic corporate code, while federal law creates minimum standards for trade in company shares and governance rights, found mostly in the Securities Act of 1933 and the Securities and Exchange Act of 1934, as amended by laws like the Sarbanes-Oxley Act of ...

INTEGRATING NATURAL CAPITAL IN RISK ASSESSMENTS

As the owner or CEO of your company, you probably want to focus on doing what you do best: running the business. So if you've ever been handed a series of financial reports by your accountant or controller, aside from frustration, you will have realised that reports on their own are often of little value.
