The fact that the earth is tilted on its axis is what's responsible for giving us different seasons. And it's why the southern hemisphere is getting ready for winter at the same time the northern hemisphere is heading into summer.

Tilted Earth - Science Updates - Science NetLinks

An overwhelming majority of fiction is set on or features the Earth. However, authors of speculative fiction novels and writers and directors of science fiction film deal with Earth quite differently from authors of conventional fiction. Unbound from the same ties that bind authors of traditional fiction to the Earth, they can either completely ignore the Earth or use it as but one of many ...

Earth in science fiction - Wikipedia

The content standards presented in this chapter outline what students should know, understand, and be able to do in natural science. The content standards are a complete set of outcomes for students; they do not prescribe a curriculum. These standards were designed and developed as one component of ...
