Perspective (from Latin: perspicere "to see through") in the graphic arts is an approximate representation, generally on a flat surface (such as paper), of an image as it is seen by the eye. The two most characteristic features of perspective are that objects appear smaller as their distance from the observer increases; and that they are subject to foreshortening, meaning that an object's ...

Today's internet, accessed by fixed and mobile networks, allows us to transmit files, voice and

video across the planet. With the emergence of an ultra-responsive and reliable ‘Tactile Internet,’ advanced techniques in robotics and artificial intelligence, we predict the emergence of an ‘Internet of Skills’ which allows the transmission of labor globally.

IEEE-ICASSP-2019

S-1 Thinking Independently. Principle: Critical thinking is independent thinking, thinking for oneself. Many of our beliefs are acquired at an early age, when we have a strong tendency to form beliefs for irrational reasons (because we want to believe, because we are praised or rewarded for believing).

Strategy List: 35 Dimensions of Critical Thought

The base of the application model is typically defined as a static file. For RCP application this file is, by default, called Application.e4xmi and located in the main directory of the plug-in which defines the product extension. The Eclipse IDE ships with its own base application file.
