Problem Solution fit canvas - innovative tool to help ...

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

Problem solving - Wikipedia

In computer science, the dining philosophers problem is an example problem often used in concurrent algorithm design to illustrate synchronization issues and techniques for resolving them.. It was originally formulated in 1965 by Edsger Dijkstra as a student exam exercise, presented in terms of computers competing for access to tape drive peripherals. Soon after, Tony Hoare gave the problem ...

Note: There have been many adaptations of CPS since its inception, because nobody owns the idea. For example, Scott Isaksen and Donald Treffinger formed The Creative Problem Solving Group Inc. and the Center for Creative Learning, and their model has evolved over many versions. Blair Miller, Jonathan Vehar and Roger L. Firestien also created their own version, and Dr Gerard J. Puccio, Mary C ...

Creative Problem Solving - Creativity Tools From MindTools.com

Section (2) lists some information about the direct methods results - for example, how many triplet phase relations (TPRs) have been found. From the TPRs, phases can be derived with a certain probability because in case of a reflection 'triplet', the reciprocal lattice vectors sum up to zero. Without going further into detail, it is the principle of direct methods that valid phases are ...
