Notes: Beginning students often find the terminology for switches confusing, because the words open and closed sound similar to the terminology used for doors, but do not mean quite the same thing when used in reference to a switch! In order to help avoid confusion, ask the students how they may think of these terms in a way that is consistent with their meaning in the context of an electrical ...

Basic Electricity Worksheet | Basic Electricity Worksheets

Gravitational potential energy is: $m \cdot g \cdot h$ m =mass g =acceleration due to gravity h =height in relation to zero level/energy because earth's surface (with rare exception) is zero level/energy, meaning ...

What are the answers to KUMON level H?

Students build their own small-scale model roller coasters using pipe insulation and marbles, and then analyze them using physics principles learned in the associated lesson. They examine conversions between kinetic and potential energy and frictional effects to design roller coasters that are completely driven by gravity.
