The Biology Project, an interactive online resource for learning biology developed at The University of Arizona. The Biology Project is fun, richly illustrated, and tested on 1000s of students. It has been designed for biology students at the college and high school level, but is useful for medical students, physicians, science writers, and all types of interested people.

The Biology Project

We have an existing spreadsheet that has been working fine. Today we double-clicked a cell, to edit the formula, but did not change anything (we tested on other cells to check). When hitting enter, or clicking another cell after getting the cell in edit-mode, the cell stopped showing the formula result and instead showed the formula.
