Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

In terms of cost and time of running these methods, the main disadvantage of the ORAC technique is that it required the use of expensive equipment (Awika et al., 2003), whereas the other three methods required a simple machine, a spectrophotometer, which is commonly available in most laboratories. Another advantage of the ABTS and FRAP was that extracts reacted rapidly with ABTS (2 h) or ferric ...
