Currency Swap is an agreement between two parties of two countries for exchanging of principal and interest of loan at its present value. This swap is very useful for controlling foreign exchange risk. Interest rate swap is different from currency swap, because in interest rate swap, we just exchange the interest from fixed to floating rates but in currency swap, we both principle and interest ...

Backflush accounting is a certain type of "postproduction issuing", it is a product costing approach, used in a Just-In-Time (JIT) operating environment, in which costing is delayed until goods are finished. Backflush accounting delays the recording of costs until after the events have taken place, then standard costs are used to work backwards to 'flush' out the manufacturing costs.

Scott, I have struggled with the same issue - what KPI for Accounting department make sense? A KPI should do two things -- (1) inform management and employees about the efficient operation of the company/department and (2) ensure employee behavior is aligned with the company goals. If your department is having issues with the work flow for AP or AR then your choice of metrics may make sense.

KPIs For Accounting Department & Finance Department

The principal-agent problem, in political science and economics (also known as agency dilemma or the agency problem) occurs when one person or entity (the "agent"), is able to make decisions and/or take actions on behalf of, or that impact, another person or entity: the "principal". This dilemma exists in circumstances where agents are motivated to act in their own best interests, which are ...
