Our World in Data is focussing on the powerful changes that reshape our world. To work towards a better future, we all need to understand how and why the world has changed up to now. We must carefully measure what we care about, and let the facts and research inform our worldview.

About - Our World in Data

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

Socrates - GLAUCON - ADEIMANTUS Such is the good and true City or State, and the good and man is of the same pattern; and if this is right every other is wrong; and the evil is one which affects not only the ordering of the State, but also the regulation of the individual soul, and is exhibited in four forms. What are they? he said. I was proceeding to tell the order in which the four evil ...
