Education and Plato's Parable of the Cave. Originally appeared in Journal of Education 178/3, 1996.. Everyone knows that Plato is deeply interested in education. In one way or another, nearly all of his dialogues are concerned with it -- what it can accomplish and how it can accomplish it, who is qualified to impart and receive it, why it is valuable, and so forth.

But not so long ago, the scientist turned his attention to physics, quantum mechanics and astrophysics. This explosive mixture has given birth to the new theory of biocentrism, which the professor has been preaching ever since.. The theory implies that death simply does not exist. It is an illusion which arises in the minds of people. It exists because people identify themselves with their body.
