The Nokia E6-00 is a smartphone running the Symbian^3 operating system. It supersedes the Nokia E72 as the new Symbian business mobility solution from Nokia following its announcement on 12 April 2011 (same day as Nokia X7-00). It shipped with the new "Symbian Anna" version of Symbian^3, and originally retailed for 340 euros before taxes. The smartphone is notable for its backlit 4-rows QWERTY ...

Within European Union member states, the EPO and other national patent offices have issued many patents for inventions involving software since the European Patent Convention (EPC) came into force in the late 1970s. Article 52 EPC excludes "programs for computers" from patentability (Art. 52(2)) to the extent that a patent application relates to a computer program "as such" (Art. 52(3)).

Some authors state that the different basic perspectives or the "research silos" still exist today, and thus the term business model is used synonymously for three different concepts in scientific discourse (Zott et al., 2011). On closer inspection of the temporal development, and of the newer publications in this research field in particular, one must relativize this statement.
