Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

X<sup>2</sup> (chi squared) - This is just the name of the analysis.  $\Sigma$  - This is an operator that says to sum all the values to the right. o - These are values you measure or observe.

### **A.P. Biology - phsgirard.org**

A reference range is a set of values that includes upper and lower limits of a lab test based on a group of otherwise healthy people. By comparing your test results with reference values, you and your healthcare provider can see if any of your test results fall outside the range of expected values and gain clues to help identify possible conditions or diseases.

### **Reference Ranges and What They Mean | Lab Tests Online**

Art is such a large part of lives. We find inspiration everywhere we look in the world, and inworld both. It can be two-dimensional or three-dimensional, composed with words, colors, paints, sculptures, multimedia, and pretty much anything you can think of!

### **Blogs - Second Life Community**

Until very recently, extreme poverty in the world was the norm. Extreme poverty has been falling quickly in recent decades, but still 10% of the world still live on less than \$1.90 per day. See global and country-level data on the prevalence of extreme poverty and how and why this has changed.
