How much should you save every month? Many sources recommend saving 20 percent of your income every month. According to the popular 50/30/20 rule, you should reserve 50 percent of your budget for essentials like rent and food, 30 percent for discretionary spending, and at least 20 percent for savings. (Credit for the 50/30/20 rule goes to Senator Elizabeth Warren, who reportedly used to teach ...

If you save a reasonable percentage of your take-home pay, like 50%, and live on the remaining 50%, you'll be Ready to Rock (aka "financially independent") in a reasonable number of years - about 16 according to this chart and a more detailed spreadsheet* I just made for myself to re-create the equation that generated the graph.

The Shockingly Simple Math Behind Early Retirement

A Data Record is a set of calculator entries that are stored in your web browser's Local Storage. If a Data Record is currently selected in the "Data" tab, this line will list the name you gave to that data record. If no data record is selected, or you have no entries stored for this calculator, the line will display "None".

Signs you're bad with money - Business Insider

One of the most important questions you'll ever have to answer as a real estate investor is this: 'HOW MUCH SHOULD I OFFER FOR THIS PROPERTY?' It's a very important question, because your offer price has everything to do with your ability (or inability) to make money on a real estate deal. Offer too much, and you won't have a large enough profit margin.
