Friction charging is a very common method of charging an object. However, it is not the only ...

Charging by Induction - physicsclassroom.com

Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and thus defines both its essence and nature of its characteristics. Information relates to both data and knowledge, as data is meaningful information representing values attributed to parameters, and knowledge signifies understanding of a concept.

Introduction. Does a train without wheels sound crazy? How could a train possibly move along the tracks without wheels? Trains that hover just above the tracks are actually possible due to magnetic levitation, or maglev for short. These trains use powerful magnets to stay in the air. Magnets generate a magnetic field. This magnetic field can push or pull on other nearby magnets, or generate a ...

Build a Floating Maglev Train | Science Project

A laser is a device that emits light through a process of optical amplification based on the stimulated emission of electromagnetic radiation. The term "laser" originated as an acronym for "Light Amplification by Stimulated Emission of Radiation". The first laser was built in 1960 by Theodore H. Maiman at Hughes Research Laboratories, based on theoretical work by Charles Hard Townes and Arthur ...

Preface to the Dover Edition. WHEN I WAS GROWING UP in the 1950s, my main sources of esoteric information were mail-order paperbacks from Dover Books. I devoured Dover's volumes on mazes, the fourth dimension, infinity, and language games—all of these to become lifelong interests. My Fourth Dimension has been one of my best-selling books, with translations appearing in France, Israel ...
