Operations Research Winston Solutions

Operations research is a vast branch of mathematics which encompasses many diverse areas of minimization and optimization. Thousands of books have been written worldwide on the subject of operations research. The central objective of operations research is optimization, i.e., "to do things best under the given circumstances." This general concept has great many applications, for instance, in ...

Operations Research -- from Wolfram MathWorld

1.4 THE OPERATIONS RESEARCH APPROACH. Given that O.R. represents an integrated framework to help make decisions, it is important to have a clear understanding of this framework so that it can be applied to a generic problem.

Principles and Applications of Operations Research

J. Bryan Watts, CFA Partner Director of Research. Bryan oversees the research process for Winston's funds. Prior to joining the firm in July 2003, Bryan worked at Cambridge Associates for five years, including three years in Cambridge's hedge fund research group, where he was most recently a Research Consultant.

Neil Harbisson (born 27 July 1984) is a Catalan-raised, Northern Irish-born cyborg artist and transpecies activist based in New York City. He is best known for being the first person in the world with an antenna implanted in his skull and for being legally recognized as a cyborg by a government. His antenna sends audible vibrations through his skull to report information to him.
