Background. The National Institutes of Health Stroke Scale (NIHSS) was developed in 1989 1, and modified later 2 in order to effectively document and standardize the clinical severity of strokes for use in multicenter clinical trials. It is a 15-item examination tool that takes fewer than eight-minutes to administer by trained personnel 3, and is utilized in telemedicine networks where ...

The Physical Medicine and Rehabilitation QBank Review is physiatrist developed and run. The educational methodology used here is based on research concluding that questions and engagement are the best way to study.. Because the field of physical medicine and rehabilitation is so young, it is difficult to find a comprehensive and reliable question bank to help with exam preparation.
