Ph and Poh Calculations Chemistry Worksheet With Answers

Solutions for the pH practice worksheet: The important thing to remember for all of these problems is that pH = -log[H+], and that [H+] is equivalent to the molarity of acid present in a solution. When the pH is less than 7, the solution is acidic, when the pH = 7 it is neutral, and when it is greater than 7, it is basic.

pH Scale Answer Key - HelpTeaching.com

Arrhenius. The Arrhenius definition of acids and bases is the oldest (1884) of the three with which you should be familiar. It derives from Arrhenius' theories concerning the formation of ions in aqueous solution. It is interesting that he first proposed this idea as a student but his professors considered the idea to be nonsense.
