In linguistics, wh-movement (also known as wh-fronting, wh-extraction, wh-raising) concerns rules of syntax involving the placement of interrogative words. In plain terms, it refers to an asymmetry between the syntactical arrangement of words or morphemes in a question and the form of answers to that question; specifically, the placement of the question word.

Wh-movement - Wikipedia

Anonymous: I had a question, not a lot of shops sell marvel specific cabochons but I know there's a lot of metal pins and charms (mostly metal) that would look cute on a case.How well would they stay if I used something metal instead of resin (or other) flat backs?? Silicone actually sticks pretty well to metal in my experience so I think you would be fine. It would just make whatever you ...
