Effectiveness of Technology for Struggling ... - Best Evidence

Cybernetics is a transdisciplinary approach for exploring regulatory systems—their structures, constraints, and possibilities. Norbert Wiener defined cybernetics in 1948 as "the scientific study of control and communication in the animal and the machine." In other words, it is the scientific study of how humans, animals and machines control and communicate with each other.

Cybernetics - Wikipedia

Plato was one of the most influential philosophical minds to have ever existed, alongside his mentor (Socrates) and pupil (Aristotle). He is the second of "The Big Three" and considered to be one ...

Arrow keys or cursor movement keys are buttons on a computer keyboard that are either programmed or designated to move the cursor in a specified direction. The term "cursor movement key" is distinct from "arrow key" in that the former term may refer to any of various keys on a computer keyboard designated for cursor movement, whereas "arrow keys" generally refers to one of four specific keys ...

Hi Perry. Thanks for that email I enjoyed reading it very much. However I cannot accept any supernatural aspects to my beliefs about Jesus and I think you will find that the idea of equality is implicit in the teachings and example of the Buddha, who pre-dates Jesus by at least 400 years, and is at least latent, if not explicit, in Greek philosophy in the 4th century BCE.
