Oracle SQL & PL/SQL
PL/SQL program unit. The main feature of SQL (non-procedural) is also a drawback of SQL: one cannot use control statements (decision-making or iterative control) if only SQL is to be used.PL/SQL is basically a procedural language, which provides the functionality of decision making, iteration and many more features like other procedural programming languages.

PL/SQL - Wikipedia
Purpose. Use a SELECT statement or subquery to retrieve data from one or more tables, object tables, views, object views, or materialized views.. If part or all of the result of a SELECT statement is equivalent to an existing materialized view, then Oracle Database may use the materialized view in place of one or more tables specified in the SELECT statement.
