Percentage Practice To find the percent of a number, change the percent to a decimal and multiply. Example: What is 30% of 50? Convert the percentage to a decimal by moving the decimal point two places to the left and remove the percent sign: 30% = .30 You then multiply .30 X 50 to find the percent: .30 X 50 = 15 15 is 30% of 50.
