Permutations and Combinations Questions and Answers with ...
There was this question on a review of a test that I took, and it went like this: John is ordering a vegetable pizza. He can choose from one to three toppings: mushrooms, olives, and tomatoes. How many different pizzas can be ordered? I was wondering the answer because the question doesn't specifically state that the pizza *must* have a topping, but it also kind of does, plus the fact that the ...

Permutations and Combinations Worksheet Answer Key
Combinations and Permutations What's the Difference? In English we use the word "combination" loosely, without thinking if the order of things is important. In other words: "My fruit salad is a combination of apples, grapes and bananas" We don't care what order the fruits are in, they could also be "bananas, grapes and apples" or "grapes, apples and bananas", its the same fruit salad.

Permutations & combinations (practice) | Khan Academy
Experiment with permutations and combinations of a number of letters represented by letter tiles selected at random from a box. Count the permutations and combinations using a dynamic tree diagram, a dynamic list of permutations, and a dynamic computation by the counting principle.

Permutations and Combinations Gizmo : ExploreLearning
(this concept will need some understanding if you are unfamiliar with it. Consider the 0's as gaps between two integers, and the number of 1's between two 0's gives the value of the integer at that position). Thus total number of solutions is the number of permutations of 10 1's and 9 0's in a row. That is 19!/(10!)(9!), or 19C10.

Permutations and Combinations ... - in.answers.yahoo.com
